Thanks Stevie:

We did receive 4 coolers this morning. Attached are the work order log in report and the signed and annotated COCs. Two broken bottles but that should not cause a problem.

They did not send your parameters for Tuesday.

I have a message that they sent samples. They are posting the COC on this ftp site.

I will check and see the lasted COC.

Subject: Dimock - COCs on FTP Site

All-

Below is information for accessing the COCs from the Dimock Residential Groundwater Site which will be placed on the Region 3 ftp site. Due to file size constraints on e-mail, we will now be using an ftp site to put the COCs each night. We will send an e-mail to the notification list each night to let everyone know that new COCs are on the ftp site for retrieval.

FTP Site (Host):
